WHO WILL BE NOMINATED?

Since the last issue of the SENTINEL the Republican conventions which have been held in a number of States and Territories have very materially changed the figures we then gave. Conventions have now been held in all the States and Territories; but the friends of the various Presidential candidates differ as widely as ever in their estimates as to who the votes of the dele-

gates will be cast for. Those of our readers who may have a fordness for puzzling their brains over such matters will be interested in the following estimates. It will be seen that the SENTINEL estimate differs considerably from either of the others. THOSE unsuspecting souls who be-lieve the Southern claims question to be a mere bugaboo will have their faith shaken by an interesting column of names which are published in the Democratic newspapers of Tennessee. They are simply the names of the residents of l'ennessee whose war claims have been passed upon by the House Committee on Claims, and reported favorably to Congress. There are about 160 claimants, and their claims foot up to about \$150,000. Of course this handsome total represents only a part of the laims of a single Southern State.

The farmers of the south part of the county now that they have their corn in, should take a day or two of rest and visit the Mineral Springs, drive to Mound City, see the improvements and attend the lot sale. Quite a number have said they were going and others should go. There will be a big crowd

THE Canadian exodus to the United States promises, in a numeralcl sense, to surpass the recent Southern exodus into Kansas. During the first three weeks of April, according to a Montreal paper, two thousand persons left that city to settle in the manufacturing districts of the Eastern States, and this is said to be only the beginning of a grand hegira from the Provinces. There is evidentsomething rotten in the government of the New Dominion, or a grewing magnetism in the free institutions of Uncle Sam. This sort of Canadian annexation is the very best sort.

The prospect for a good attendance at the lot sale at Mound City is fing; they are coming from adjoining counties and all parts of Holt. Letters of nquiry are being received from parties in Kansas and Nebraska.

WASHINGTON is full of rumors about Tilden. One is that he has bargained for the purchase of the Ohio delegation for \$50,000. Another is is that he is the auther of the periodic outbreaks about Seymour, being animated partly by a desire to make Seymour rimions and partly by a wish to keep the party impressed with the nece of having a New York candidate. Finally, it is stated, with much emphasis, that Tilden has decided not to be a candidate under any circumstances, and will be content with naming the nom-

SENATOR-ELECT MAHONE, the "boss" of the Virginia debt readjusters, seems to be halting in his purpose to hand that State over to the Republican party. Embittered by the failure of the Republican State Convention to accept his overtures for a joint and inder ent electoral ticket, and alarmed at the anti-third term clamor of the North, he has granted a dispensation to his fol-lowers to vote for the Democratic canlidate for President this year without losing their standing in the Readjuster party. Mahone is a bold fighter when necessary, but he is a trimmer as well. He means to hold off until the Presidential candidates are named and then fall in on the winning side.

Or the curiosities of life insurance there is no end. The reader will remember the circumstances of the coldblooded murder in Camden of John M. Armstrong by Benjamin Hunter, who has since been enecuted for that offence. Hunter had induced Armstrong to insure his life for \$7,000, the policies being for the benefit of Hunter himself. Having been hanged, he left these policies behind him, after a rather desperate effort to induce the companies to pay the money. Now they turn up in the possession of the widow of Armstrong, who has begun a surtupon them against the Mutual Life. That suit, we are inclined to believe, will be a short continuance.
